Healing the Earth through Agnihotra

By Pam Fernandez, PhD (UP Los Banos)

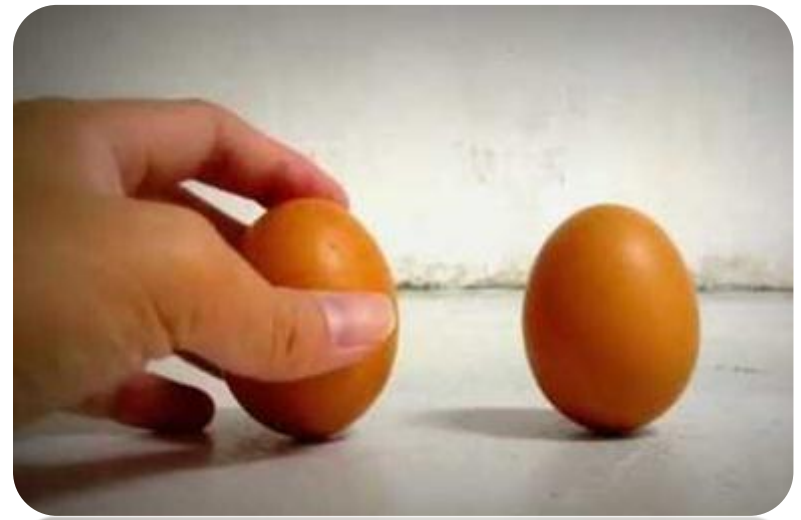

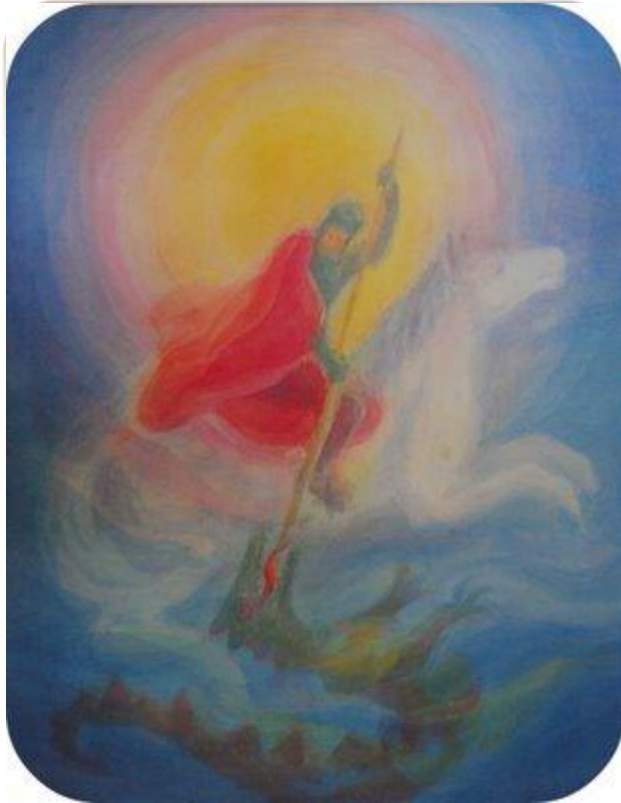

September 23, 2012... Fall Equinox

September equinox ...
a time of balance when
“day and night are equal”

*and that that by some
mystical force one can
balance eggs on their
end on these days???*

Michaelmas- Sept 29- near Equinox, also considered part of the same phenomenon.

**Around these times since 2006 my current work had been
led into as typhoons visited my area.**

**Brave and true will I be,
Each good deed sets me free,
Each kind word makes me strong.
I will fight for the right!
I will conquer the wrong!**

**Sword of Michael brightly gleaming,
Down to earth its light is streaming,
May we see its shining rays
In the Winter's darkest days.**

Happy Michaelmas!

About..... Padre Pio

- Sept. 23, 2009 is the Feast of St. Padre Pio of Pietrelcina, Capuchin Priest. He died in 1969, just 41 years ago. These images below were circulated last year, on his 40th death anniversary.

- Padre Pio, a humble Capuchin priest from San Giovanni Rotondo, Italy, was blessed by God in many wonder and mysterious ways. Padre Pio bore the wounds of Christ for 50n years!

- Among his other gifts were perfume, bilocation, prophecy, conversion, reading of souls, and miraculous cures. People are still being cured through his intercession in ways that cannot be explained by meicine or science.

- More important, if less spectacular, are the spiritual healings that takes place in all parts of the world! Padre Pio is a powerful intercessor!!

Fr. Pio's body exhumed after 40 years

The body of the mystic monks Padre Pio, one of the Roman Catholic world's most revered saints who died 40 years ago, has been exhumed to be prepared for display to his many devotees.

Archbishop Domenico D' Ambrosio, left, is helped by other priest to open the coffin containing the remains of Padre Pio. AP

The body of the Capuchin friar, who was said to have the stigmata-the wounds of Christ's crucifixion on his hands and feet - is to be conserved and put in a part-glass coffin for at least several months from April 24.

A Church statement said the body was in "fair condition" particularly the hands, with Achibishop Domenico D' Ambrosio, who witnessed the exhumation in the southern italian town where Pio died, said "looked like they had just under gone a manicure"

A spokesman for the monastery at San Giovani Rotonda said he believed morticians would be able to conserve the face of the beared monk well enough for it to be recognisable

The body, which had been buried under narble in a crypt, was exhumed during a three hours service that ended after midnight.

A Catholic magazine once found that far more italian catholics prayed to Padre Pio than t any other icon of the faith, including the Virgin Mary of Jesus. Some 7 million people visit his tomb every year. There are some 3,000 "Padre Pio Prayer Groups" around the world, with a membership of around 3 million"

Padre Pio is also said have predicted future events, to have been seen in two places at once, and to have been able to tell people their sins before they confessed them to him.

Pope John Paul II made him a saint in 2002 at q ceremony that drew one of the biggest crowds ever to the Vatican after the miraculous cure of a sick woman was due to the dead monk's intercession

What is the Stigmata?

The wounds of Christ's passion miraculously appearing in another person, by gift of Yeshua (Jesus) wanting to share with that person himself. The person suffers in Christ for the sins of others (sometimes it is more Christ suffers in them and with him, not theirs; they do not belong to them, rather they are His).

Saints Pio of Pietrelcina ("Padre Pio") recieved the "invisible stigmata" while praying in a "hut" outside his parents home 8 hours before he recieved the visible bleeding wounds. He suffered the agonies of burning hands and pain as nails in them, yet no visible sign of the stigmata. Only later, did he recieved, as documented by the Roman Catholic Church, the visible stigmata when the Lord appeared to him in a vision while praying in the chapel and he felt the Lord mystically-physically pierce his hands, feet and side with His own wounds-the woubds of his passion. Saints Pio's hand had penny size holes in them that never healed for 5 decades. He bled for others sins for 50 years. He frequently bilocated (was in more than one place at a time, and was documented by the church to be in more than one place at those times). He spent days in the confessional, up to 13 hours at times a day, hearing confessions of people who travelled from all around the world to go to confession to the mystic who could read their souls and would often announce to them their deefest kept secrets and sins, warning them they have to repent sincerely or be lost forever in hell. Padre Pio was not unlike other stigmatists in having first recieved the invisible stigmata, which is often accompanied by other phenomena indicating Christ is present and working in that person.

Feast of St. Therese of Lisieux

Doctor of Church... Why has she merged science, spirituality and religion? Why is she in UPLB?

Saint Thérèse was proclaimed a Doctor of the Church by Pope John Paul II in 1997 - 100 years after her death at the age of 24. She is only the third woman to be so proclaimed, after Saint Catherine of Siena and Saint Teresa of Avila.

St. Thérèse wrote once, 'You know well enough that Our Lord does not look so much at the greatness of our actions, nor even at their difficulty, but at the love with

By Glenn Clark
(1946)

This book, of which more than 300,000 copies have been sold, has made Walter Russell and particularly his scientific and philosophical work known worldwide.

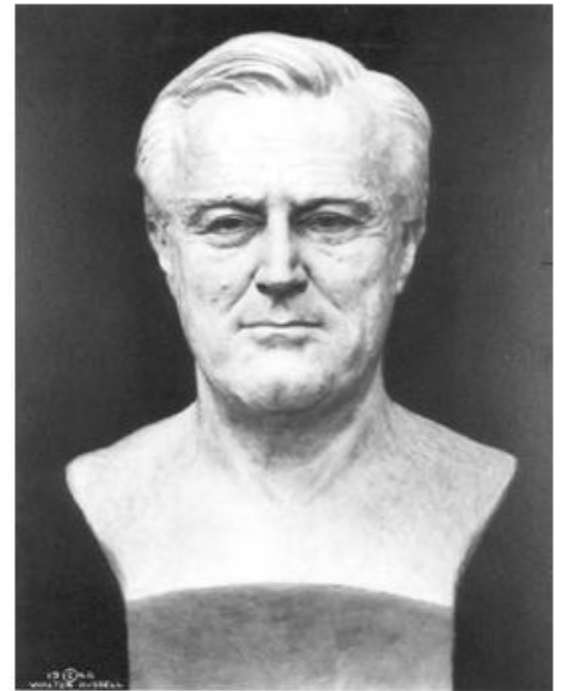

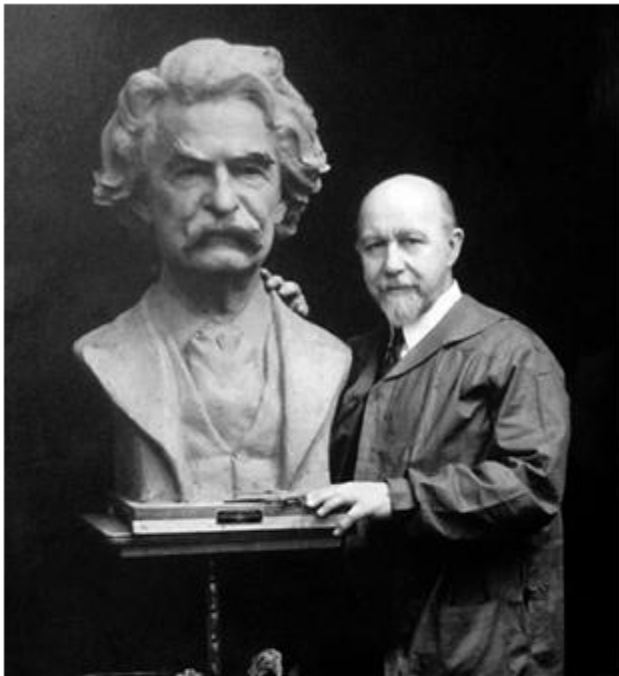

Walter Russell, musician, illustrator, portrait painter, architectural designer, sculptor, business practices advisor to employees of International Business Machines, champion figure skater, natural scientist, philosopher and author.

"Can you give me the secret of your life?" asked Glenn Clark. ***"I believe sincerely that every man has consummate genius within him. Some appear to have it more than others only because they are aware of it more than others are, and the awareness or unawareness of it is what makes each one of them into masters or holds them down to mediocrity. I believe that mediocrity is self-inflicted and genius is self-bestowed. Every successful person I ever have known, and I have know a great many, carries within him the key which unlocks that awareness and lets in the universal power that has made him into a master."*** "What is that key?" queried Glenn Clark. ***"That key is desire when it is released into the great eternal Energy of the Universe."***

The many years of teaching, research-extension and advocating has led me to the conclusion that we need quantum solutions not only in Agriculture but also in the Environment and Consciousness, and in the other spheres of society (i.e, not only in the cultural sphere but also in the economic and political spheres). I was brought to commit to the practice of Agnihotra in 2007 after a super typhoon called Milenyo. I sensed that nature's forces are becoming graver yet here we are acting like it is business as usual. I am sharing the newsletter (issues 1-9) on Agnihotra Philippines Forum to solidify the intention of spreading the practice. I initially posted them in my other sites:

<http://agnihotraphilippines.blogspot.com/>
<http://agnihotraphilippines.multiply.com/>

The effect is amazing, the practice so simple. The practice has multi-level effect. I have been serving as distribution source of the pyramid and the needed consumables, including literature. Shipping in the country is easy. Coming up is the 10th issue.

I want so share too that Agnihotra is a partner practice of the Don Bosco Foundation for Sustainable Development Inc. which is primarily promoting and doing Biodynamics.

WAVE OF CHANGE

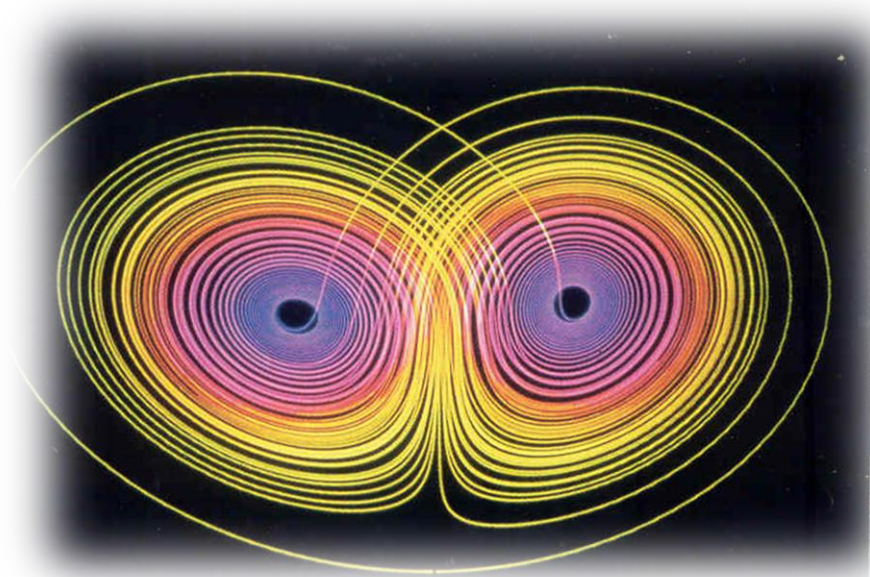

A new wave of change is here. This wave permeates all aspects of human and earth existence. On the other hand, new knowledge is being revealed and new tools are being developed to answer current challenges: illnesses, pests and diseases, climate changes, calamities, etc. Approaches have been 2-pronged: one hangs on to the old mechanistic reductionist model, the other explores what is beyond that, as well as the fundamental role of human beings in addressing all these challenges in a synthesis way. Einstein's premise is that we cannot find solution to our problems with approaches that come from the same framework that created the problem in the first place. These solutions must be coming from outside the box. And that outside the box space has been there all along, among ancient practices and teachings, and is now confirmed by the new

- The method combines a sound broadcaster (4000 to 6000 Hz) with a nutrient-spray.
- The sound, emitted (15 minutes before fertilizing) will open the stomata, enabling the plant to absorb more water, nutrients, oxygen, carbon dioxide and other gases. (Oliver P. 2002)

Coconut:

Conventional method:

- New and old plants attacked by **ants and fungi**
- Fruit fell off before ripening
- Each bunch produced only 5 coconuts, which ripened very slowly.

WITH HOMA THERAPY

- The plants got healed and freed of all fungi and ants.
- Producing an average of 25 coconuts per bunch (up to 35 coconuts)
- Year round production

1. Perform **ANIHOTRA** for purification of the atmosphere which leads to automatic purification of mind.
2. Practice **DAAN** (sharing of assets in a spirit of humility to reduce attachment to worldly possessions).
3. Practice **TAPA** (becoming better managers of our energy expenditure by training the body and mind to react to all circumstances in life with Total Love).
4. Perform **KARMA** (every action for self purification only and thus no expectations which bind us to the material world).
5. Practice **SWADHYAYA** (Self-study) for liberation. Who am I? Why am I here? My work on this planet is to learn to react with total LOVE with each opportunity given to me.

*There is only **30 seconds** to capture that energy !!!*

*The range of effect is **1-20 km***

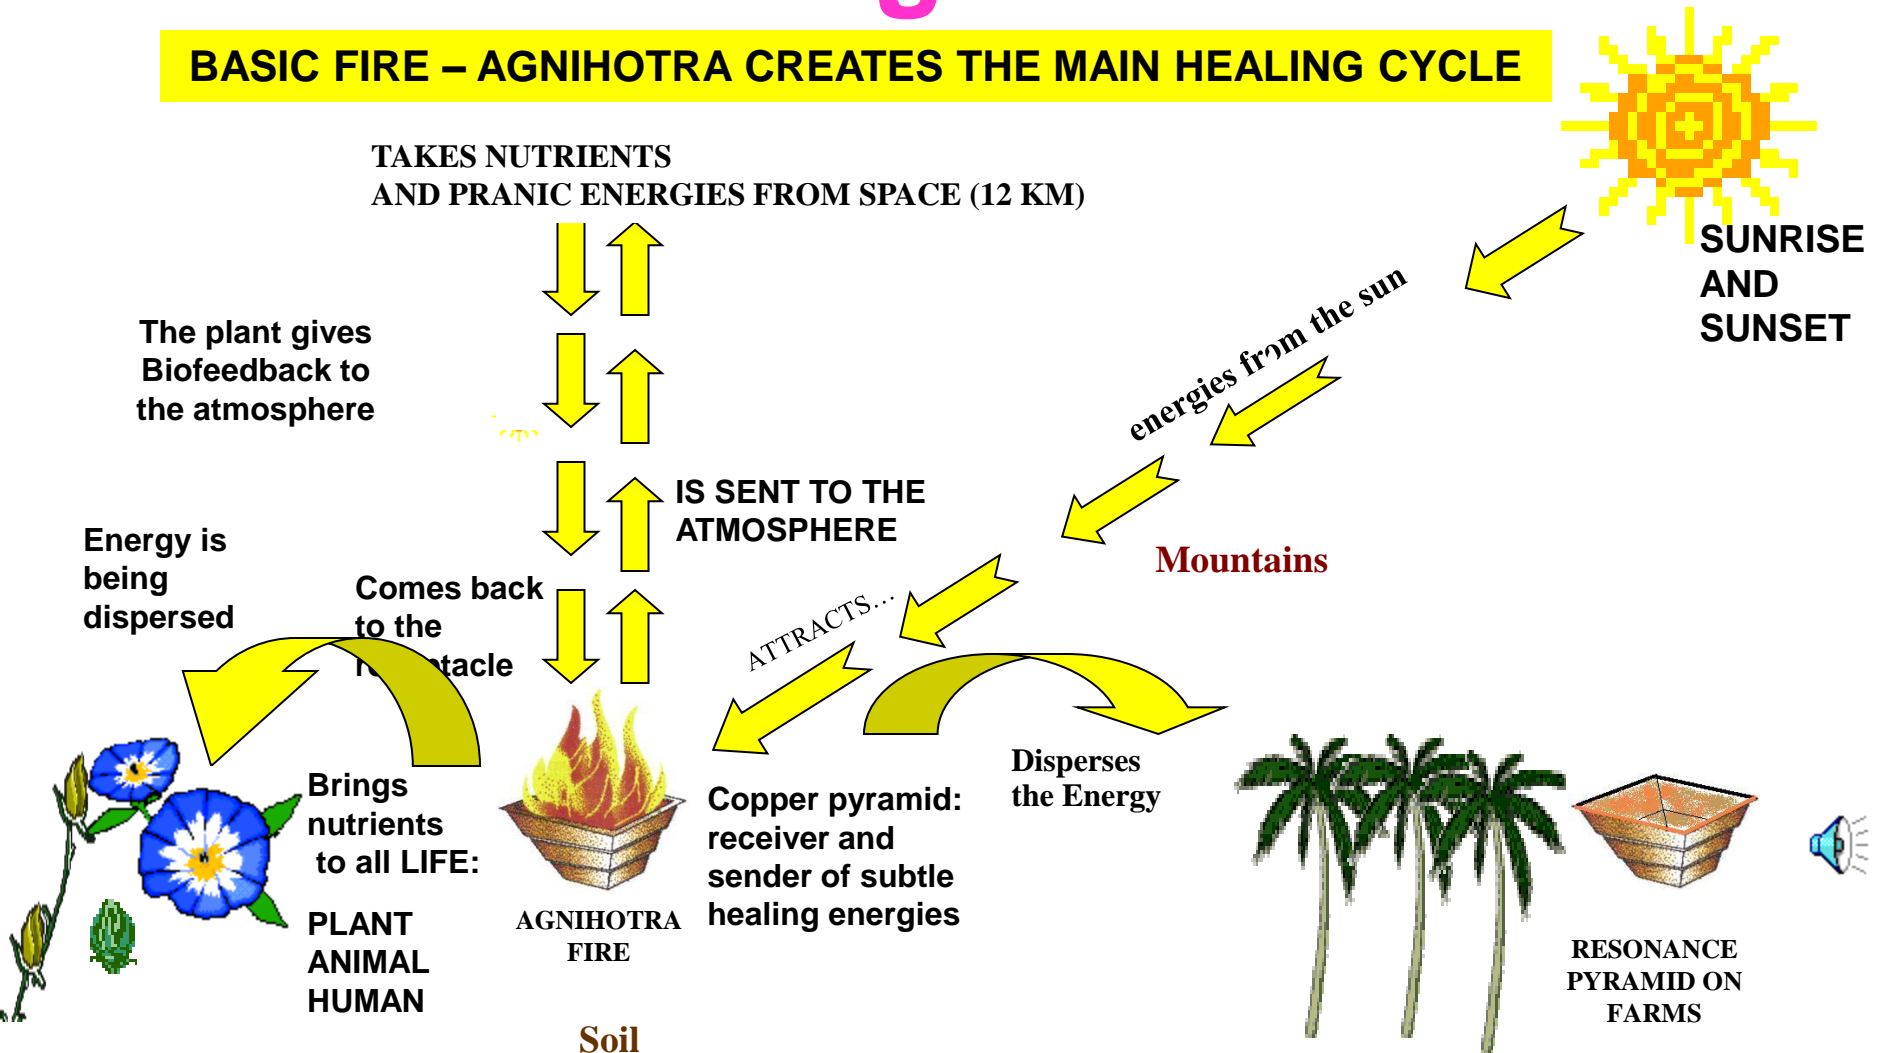

Agnihotra ...

- ❧ A practice done at exact **sunrise & sunset** to catch that highly powerful energy (*ephemeral*)
- ❧ Creates a **vortex** of energy from the pyramid to attract the strong healing energy from the sun specific at those moments
- ❧ The **contents** that are aflame become **transformed**. Together with the **energy**, are able to **purify the atmosphere and other earth components**
- ❧ The resulting **ash** has various **healing applications**

How does Agnihotra work?

BASIC FIRE – AGNIHOTRA CREATES THE MAIN HEALING CYCLE

The PYRAMID CONFIGURATION IN A RESONANCE POINT affects an area of 50 hectares, which is the area in a radius of 380 m.

What happens during Agnihotra ...

- ❧ At sunrise the many fires, electricities, ethers and more subtle energies emanating from the sun...
...extend to the earth and produce a flood of effect at those coordinates where the sun appears to rise.
- ❧ These energies are captured within the pyramid...
...and thrust 12 km into space by fire...
- ❧ ...where there is a layer with “quantum-cosmic” particles and nutrients.
This flood of energies returns to the pyramid...
- ❧ ...and rebounds bringing nutrients and love into the surroundings...
...nourishing plants, animals and human life.
- ❧ The agnihotra mantras are the quintessential sound of that flood.
At sunset the flood recedes.

Human conditions cured by agnihotra

- Addictions: drug, alcohol, etc
- De-stress: Relieves anxiety, mental tension (and other neuropsychological parameters)
- Anti-microbes: reduction of microbial counts (atmosphere, lab. experiments, wounds, etc.)
- Homa therapy :
*sinusitis.. skin fungus.. non-healing wound.. extreme menstrual bleeding.. kidney pain..
gastritis.. migraine.. tonsillitis.. diabetes.. Cancer...heart disease...*
- Calming effect on children, better concentration
- Promotes family peace, harmony happiness, tranquility, contentment
- Etc. etc.

OTHERS: Farming/Agriculture

- Rapid seed germination
- Improved rooting of cuttings
- Increased crop yields
- Bigger harvest, better food grain preservation
- Better food quality (luscious, nutritious harvest)
- Drought/frost resistance
- Release of useful minerals (e.g. Phosphate)
- Early fruiting, better adaptation (e.g. to warmer environment)
- Pet and farm animal healing

Basic application or preparations of agnihotra ash

- Humans/animals:

Apply externally - ash solo or in ghee ointment

Drink (put a pinch ash in a glass of water (best if allowed to sit for 3 days, or boil a tbsp in 2 liter water for 10 min.

- Plants: same concentration as in drink, use water after 3 days, or apply as paste on trunks

Agnihotra

Agnihotra water crystal

- Cleanses the soil, water, air
- Reprograms the atmosphere's energy field
- Heals people who are in the energy field
- Pervades substances with life force

Healing is from both the practice and the use of resulting ash

A Person's Role in **AGNIHOTRA**

Agnihotra performer acts as biological transducer (energy transformer) of various energies that are beneficial

Women in their menstrual period should NOT handle the materials

(energy goes downward thus cancels energy)

Why ...FIRE and BURNING ?

- Fire is transformational
changes the state of matter
- Makes the pyramid vibrate and release energy
- Fumes, smoke or vapors from the burning components **rise high up** in space (*vortex form*) and ... *gathers nutritional properties*

Why...**SUNRISE** and **SUNSET**?

- These are *transitional* moments (neither day nor night)
- A powerful stream of healing (vital life sustaining) energies similar in power to an *atom bomb* covers the earth at these times

Sunrise

Sun is halfway visible

Sunset

Why ... PYRAMID

Why... COPPER?

The Pyramid ...vibrates with fire... when inverted releases energies & spread into the atmosphere

... an energy field is formed & *neutralizes* negative energies & *reinforces* the positive pattern of energy

Pyramid power is supernatural or paranormal properties of the ancient pyramids and objects of similar shape. This power, is said to preserve foods, maintain the sharpness of razor blades, improve health function, trigger sexual urges and cause other dramatic effects.

Homa- *Therapy, Farming/Agriculture*

(Homa=Fire)

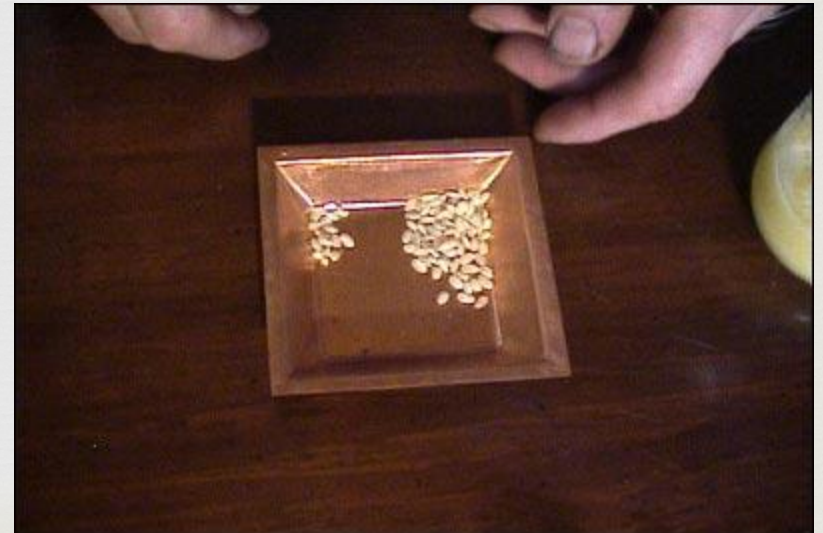

Homa ... a collective term for the various Vedic techniques used in the **purification of atmosphere**.
Agnihotra is one technique.

Homa therapy... *various healing applications on humans, animals, plants, soil, atmosphere, etc.*

Steps in doing **Agnihotra**

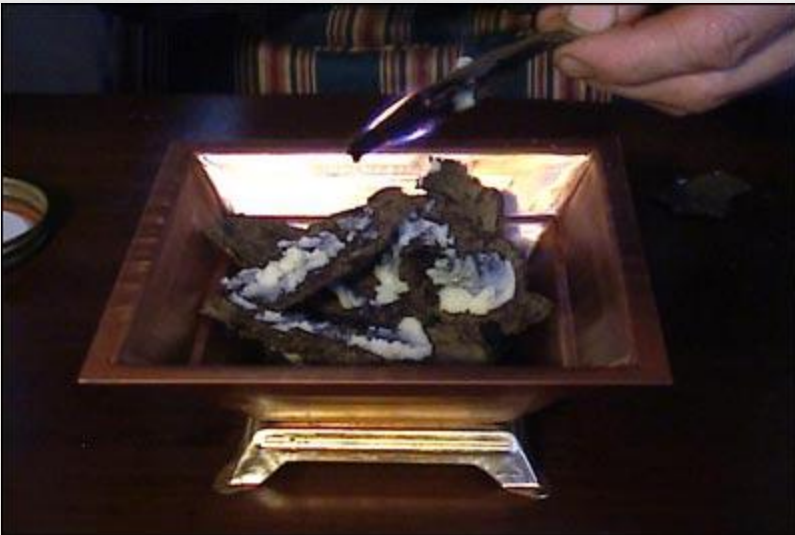

Set-up 10 minutes before the time... should be sufficient

Steps in doing *Agnihotra*

Start lighting 7 min the time of mantra

Steps in doing *Agnihotra*

At the exact moment... sing the mantra

- Add the rice with the SWAHA
- Notice the finger position
- Let hand go by the heart region before dropping the rice
- Drop rice at the “swaha” part

Do not touch the pyramid after the mantra or the harvesting and spreading of the energy will stop.

Agnihora at home during a food festival with students and friends

Keep the set-up untouched until the next sun transition
Ash may be gathered and used directly or sieved.

Why Agnihotra NOW?

- *This is the time of power and transition.
This is the Time to gather as one Voice, one Heart,
one Mind.*
- *Many compassionate hearts are already **dedicating
intention, prayer, meditation, service, mass, circle,
dance, chant and song.***
- *In harmony all can come together to co-create a new
vision and possibility.*

We need to reach the Critical mass through

- the 100th monkey effect
- The butterfly effect
- Relate, repeat and reframe the idea

**We have a simple
solution to the
overriding challenges...**

...Earth health
...Climate change
...Calamities
... Illnesses
...Human will “paralysis”

Through agnihotra and Homa Therapy

A stack of smooth, light-colored stones is balanced on a rocky shore. The stones are of various sizes and shapes, some with a reddish tint. The background shows a body of water and a rocky shoreline. The text is overlaid on the right side of the image.

apply. Willing is
not enough, we
must do.”

- *Tipping point*
- *Polluted earth → polluted mind and body*
- *Quantum and multiple effect*
- *Very cheap, simple, easy and quick action*
- *Improves WILL power*
- *Do our duty... first in the 5-fold path*

***Why
Agnihotra
and Homa
Therapy
now?***

THE FIVEFOLD PATH.... a guide for happy living:

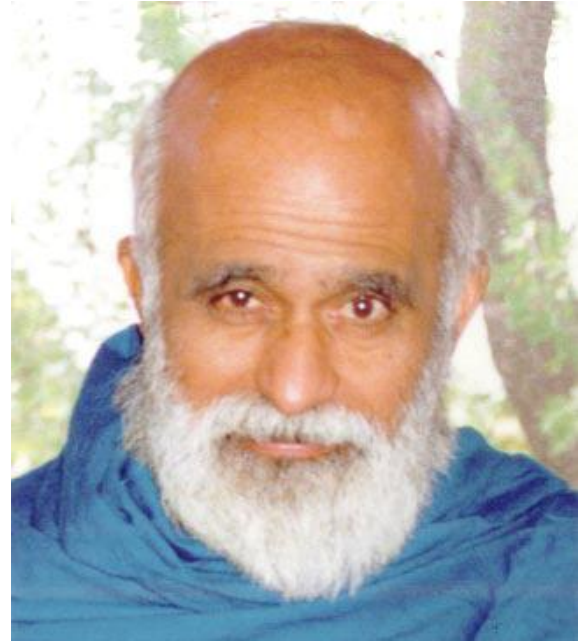

1. Perform ANIHOTRA for purification of the atmosphere which leads to automatic purification of mind.

2. Practice **DAAN** (*sharing of assets in a spirit of humility to reduce attachment to worldly possessions*).

3. Practice **TAPA** (*becoming better managers of our energy expenditure by training the body and mind to react to all circumstances in life with Total Love*).

4. Perform **KARMA** (*every action for self purification only and thus no expectations which bind us to the material world*).

5. Practice **SWADHYAYA** (*Self-study*) for liberation. (*Who am I? Why am I here? My work on this planet is to learn to react with total LOVE with each opportunity given to me.*)

AGNIHOTRA Quantumly cures the Earth...

process of **healing & purifying atmosphere** during **sunrise and sunset**.
part of **ancient Vedic practices** in *medicine, climate engineering*.

Agni means **fire**

Hotra means **Healing**

What Happens during Agnihotra?

through **fire**

Sunset

- ✓ At sunrise the many fires, electricities, ethers and more subtle energies emanating from the sun.
- ✓ *Extends to the earth and produce a flood of effect at those coordinates where the sun appears to rise.*
- ✓ The energies are captured within the pyramid *and thrust 12 km. into space by fire & 1 km. radius around* where there is a layer with "quantum-cosmic" particles and nutrients.
- ✓ *This flood of energies returns to the pyramid* and rebounds bringing nutrients and love into the surroundings which *nourishing plants, animals and human life.*
- ✓ The agnihotra **mantras** are the quintessential sound of that flood.
- ✓ *At sunset the flood recedes.*
- ✓ **A practice done at exact sunrise & sunset** to catch that highly powerful energy (*ephemeral, 30 sec.*).
- ✓ **Creates a vortex** of energy from the pyramid to attract the strong healing energy from the sun specific at those moments.
- ✓ The contents that are aflame become **transformed**. Together with the **energy contents**, are able to **purify the atmosphere and other earth components**.
- ✓ The resulting **ash** has various **healing applications**.

Subtle Energies from Agnihotra:

- * Evoke or reinforce our own **vital energy**, *subtle energy, life force, bio-energy, bio-plasmic energy, prana.*
- * Kirlian photography (*for aura*) captures this energy pictorially.
- * Other device (*psychotronics, oscilloscope*) can demonstrate changes in subtle energies & life forces.

How to do Agnihotra...

Materials needed:

Timetable or Calendar of Sunrise & Sunset.

Pyramid... vibrates with Fire... when inverted, releases energies & spread into the atmosphere... an energy formed & neutralizes negative energies & reinforces the positive pattern of energy. Pyramid which is made up of copper or gold.

Copper/gold... best conductor of heat and electromagnetic waves! both esp. in pyramid form act as generator of negative ions when the necessary components are burned.

Cow Dung ... Cleanest & most transformed of all dungs... Fresh and burnt cow dung (*fumes and ash*) are highly medicinal... Proven to eradicate harmful bacteria and control dangerous effects of **RADIOACTIVITY**.

Ghee (clarified butter)... has properties of detoxification... act as carrier of subtle healing energies... the mother of all medicine & has many therapeutic properties... full of nutritional properties.

Rice (unpolished)... has yin yang effect, releases certain healing substances.

Sunrise Mantras:

Suryaye Swaha
Suryaye Idam Na Mama
Prajapataye Swaha

Sunset Mantras:

Agnaye Swaha
Agnaye Idam Na Mama
Prajapataye Swaha
Prajapataye Idam Na
Mama

Mantras ... words in **Sanskrit** (*mother of all languages but nobody's mother- tongue*)... Each **verse** is a **precise formula** creating a **vibration** (**focusing energy**) that then carries the directions and forces required.

- ✓ Sunrise Mantras should be sung in doing morning Agnihotra.
- ✓ Sunset Mantras should be sung in doing afternoon Agnihotra.
- ✓ Sunrise & Sunset – these are the transitional moments (neither day or night).

- a powerful stream of healing (vital life sustaining) energies

similar in power

to an atom bomb covers the earth at these times.

- ✓ Exact sunrise /sunset (Hr:min:sec:), Latitude, Longitude.

* Agnihotra performer acts as **biological transducer** (energy transformer) of various energies that are beneficial

* Women in their menstrual period **should NOT** handle the materials - *energy goes downward thus cancels energy*.

Procedure in doing Agnihotra:

1. Put dung patty at the base and smear with ghee. (do approx 10min before the time).

2. Prepare rice. Smear with ghee.

3. Light up approx. 7 min. before the time (use a chip of dung smeared with ghee).

4. At exact time add the rice while uttering the mantra (after each "swaha").

Applications of Agnihotra-Homa Therapy...

Homa - a collective term for the various Vedic techniques used in the purification of atmosphere.

* **Agnihotra** is one technique.

Homa therapy... various healing applications on humans, animals, plants, soil, atmosphere, etc.

Humans/animals:

* *Apply externally - ash solo, or in ghee – as ointment.*

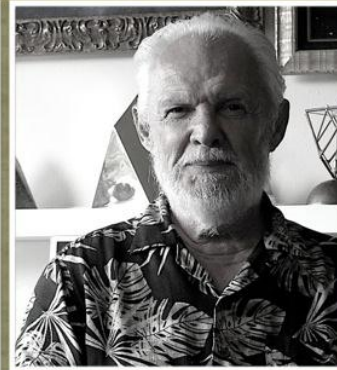

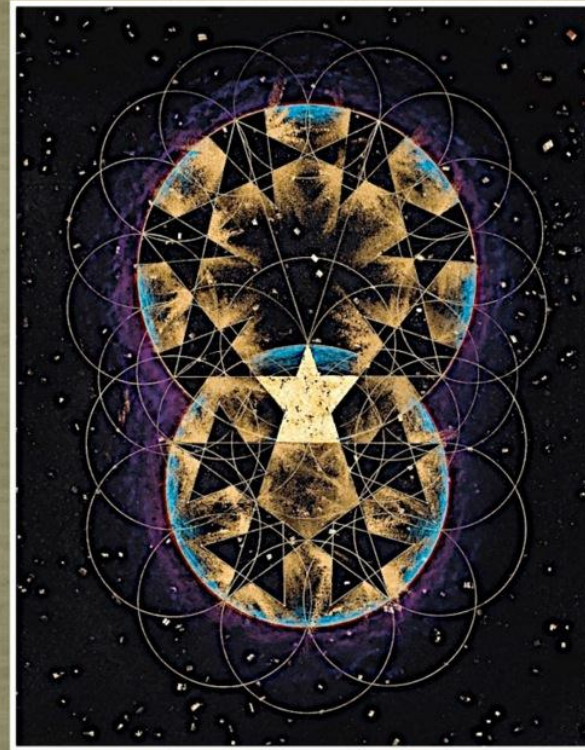

* *Drink (put a pinch of ash in a glass of water, or boil for 10min a tbsp ash in 2 liters of water).*

Uses of Homa Therapy, Farming/Agriculture...

1. **Treat the farm atmosphere** through Agnihotra and other pyramid-based but off-timed practices.
2. **Treat/feed the soil and plants** ...by adding or dusting Agnihotra ash to compost, raised beds/soil, organic or natural fertilizers and conditioners, mulch, plant leaves.
3. **Seed selection & seed/seedling treatment (for vigor and resistance)** in the homa-treated area & with ash.
4. **Seed treatment at planting; rooting enhancement for cutting and air layering** (ash).
5. **Treat pest infested and diseased plants and parts** (with Agnihotra ash paste- with ghee).
7. **Seed storage & food preservation.**
8. **Farm animal care:** Agnihotra performance and ash in soil bedding, manure, feed, water; also for health management and cure of diseases/illnesses.

Sacred Geometry of the Heart by Frank Chester

**The heart of the revolution

Heart...** Improve heart

and through other heart
enhancing practices

FRANK CHESTER AND THE HUMAN HEART

Frank is an artist, sculptor and geometrician who lives in San Francisco. He has taught art for more than thirty years in high schools and colleges. Since encountering the work of Rudolf Steiner, Frank has been exploring the relation between form and spirit. This has led him to take up research concerning the number seven, and in 2000 he discovered a new geometric form never seen before. Putting this form through the alchemical transformative process of Earth, Water, Air, and Fire, many previously unknown geometric structures have emerged. Also this geometric form demonstrates a remarkable correlation to the form and functioning of the human heart. On the basis of experimentation with various related geometric forms and the movement of water in a vortex, Frank is uncovering indications concerning the relationship between etheric formative forces and the geometry, structure, and physiology of the human heart. Thus the form is called the Chestahedron, both after its discoverer and because the form relates to the geometry of the heart, which sits in the chest. For the last several years he has been teaching sacred geometry at the Waldorf teacher training program in San Francisco. He has been presenting his research at international conferences and Waldorf schools in the United States and Europe.
